SUMMARY

Full Stack Developer with hands-on project experience building web applications using React, Django, and Python, including authentication systems and RESTful API integration. Comfortable working with data-driven applications and translating business requirements into technical solutions. Currently building foundational exposure to Big Data and cloud data platforms alongside core software development skills. Strong communicator, quick learner, and effective team collaborator with proven leadership experience as a project team lead.

KEY SKILLS

Languages	Python, JavaScript, SQL
Web / Frameworks	React, Django, REST APIs, HTML5, CSS3
Tools & Practices	Git/GitHub, Authentication systems, Database management, Agile teamwork
Core CS	Data Structures, OOP, Cyber Security fundamentals

PROJECTS

Web Platform for Direct Market Access for Farmers

Jan 2026 – Jun 2026

Team Lead (Team of 4) | React, Django, Python | Mentor: Dr. Sunny Bagga

- Led a 4-member team to design and build a responsive full-stack web application connecting farmers directly with consumers and retailers, removing middlemen.
- Built features for produce listing, price negotiation, and transaction management, integrating a Django/Python backend with a React frontend.
- Designed a user-friendly interface that improved market accessibility and supported fairer pricing for farmers.

EDUCATION

Shri Vaishnav Vidyapeeth Vishwavidyalaya (SVVV), Indore

2023 – 2027

Bachelor of Technology (B.Tech), Computer Science & Engineering — CGPA: 7.71/10 (≈77.1%)
